Reference No. 1797/39-C.2

Station Chepauk, Madras, *Dated the* 25th March 19 39.

From (Name) C. C. Wilson, Esq., I.F.S.,
(Designation) Chief Conservator of Forests.

To The Secretary to the Government of Madras,
DEVELOPMENT Department.

Sir,

(P) With reference to Government Order No.1054, Ms. (Development) dated the 31st August 1933, I submit the following report on the Special Forest concessions allowed in the South Kanara District during 1938.

Pb 6-12 mp.in

2. I enclose a statement showing the extent to which the concessions were availed of, and were well used or abused. The results were on the whole satisfactory except in the case of nine reserves in which the concessions were

abused

2/

abused. The Kalanjimale Reserved Forest was the worst sufferer, having been indiscriminately cut about.

3. The Conservator, Ootacamund Circle recommends the closure of the Kalanjimale Reserved Forest for 12 months from 1st April 1939, as it has been persistently subjected to abuse of the concessions every year, in spite of warnings, and suggests that the Reserved Forest may be reopened only if the District Forest Officer is satisfied that there has not been an undue amount of thieving in the year. The Collector of South Kanara strongly supports the proposal. I also recommend that Government be pleased to order the closure of this reserve to the concessions for a period of 12 months from 1st April 1939. Orders on this particular point are requested, by telephone, in the immediate future.

4. I enclose a list of coupes which have to be closed to the concessions on silvicultural grounds. I also enclose a list of coupes which were closed in previous years to the concessions, on Silvicultural grounds and which will now be opened.

5. The following concessions were allowed to the ryots of this District under Government Order No.1211, Ms.(Development) dated the 10th May 1938.

(i) Free removal of Strobilanthus, Macranga, Trema and Holigarna and of all climbers and weeds from felled fuel coupes at the District Forest Officer's discretion, in both the old Mangalore Divisions.

(ii) Free removal of green leaf manure of unclassified species and of dry leaves and dead fallen wood from all Hopea plantations in the old North Mangalore Divisions. ~~and~~

(iii) All areas sown with Acacia Mundra in old North

Mangalore

Mangalore Division were thrown open to all concessions.

and (iv) Formation of manure leaf coupes in certain specified localities.

It was proposed to form manure leaf felling series in seven reserves and sales were widely advertised. There was an offer only for one reserve and a coupe of 20 acres was sold. There was no demand for the other six reserves as the ryots were able to get their requirements from patta lands, unreserves and Kumakies.

30.3.39

For Chief Conservator of Forests.

SRM.28-3

M. 30.3.39 30/3.
